Anh Vu Pham

Data Scientist

Montreal, Canada | Open to relocation | +1 (514) 589-9012 | anhvupham.ma@gmail.com | anh-vu-pham

Technical Skills

Languages & Tools SQL, Python, PySpark, Hive, Snowflake, dbt, Statsig, PostHog, Amplitude, Looker, Cursor
Methods Experimentation, Causal Inference, Forecasting, Exploratory Analysis, Machine Learning

Experience

Shakepay
Montreal, Canada

DATA SCIENTIST
Aug 2025 - Aug 2026

- Grew quarterly inflows **$4M+** by showing that slow first support replies halved deposits, leading Support to extend hours instead of hiring
- Raised new-customer activation **3.3pp** (est. +$2.4M monthly inflows) by cutting a 5-step path to first deposit to one prompt, A/B tested with Product
- Cut quarterly planning in half by building an inflows North Star metric hierarchy for 1.5M+ customers, now used by Product, Engineering, Marketing, Sales, and Operations teams for experiments and GTM
- Standardized experimentation from full rollouts to A/B and multivariate tests, with stratified randomization and sequential vs. fixed-horizon designs
- Found multi-product customers retained 2x monthly, making weekly multi-product users the company's growth metric
- Lifted top-tier loyalty retention 60% → 67% by replacing a lagging tier goal with an actionable leading indicator
- Cut ad-hoc data requests 50%+ by building AI skills (Codex) that turn PM and engineering ideas into sized A/B test briefs

Autodesk
Montreal, Canada

DATA ANALYST - PRODUCT-LED GROWTH & LIFECYCLE MARKETING
Nov 2022 - Aug 2025

- Lifted renewal rate **13pp** by using Random Forest on usage data to find the onboarding milestones that predict renewal, adopted by Lifecycle Marketing, Customer Success, and Sales
- Cut churn **11%** by setting inactivity thresholds from usage data and partnering with Marketing to redesign re-engagement campaigns
- Sized a $20M cross-sell opportunity across 10K+ accounts by showing renewal timing and seat growth, not company size, predicted expansion
- Scaled A/B testing 5x across cross-functional teams by surfacing renewal signals that became their test hypotheses

DATA ANALYST INTERN - MEDIA & ENTERTAINMENT
May 2022 - Aug 2022

- Shaped feature roadmaps for 10+ dev teams with unified MAU and feature-usage dashboards for enterprise clients

Autorité des Marchés Financiers
Montreal, Canada

DATA SCIENCE INTERN
Jun 2021 - Dec 2021

- Added the first public-sentiment score to reporting using NLP topic modeling on reactions to crypto-fraud campaigns

Corning Inc.
Montreal, Canada

MACHINE LEARNING INTERN
Sep 2020 - Dec 2020

- Tripled inventory search accuracy by building unsupervised document clustering and benchmarking NLP models

Education & Certification

McGill University
Montreal, Canada

Bachelor of Science, Joint Major in Statistics and Computer Science
Sep 2018 – May 2022

Certifications & Professional Development

Product analytics - Reforge, Product management - Pendo, Lenny's newsletter
